

JOIN OUR EXCLUSIVE PROGRAMME AND SUPERCHARGE YOUR BUSINESS WITH DATA TODAY!

Data-Driven Digital Transformation for Built Environment

Duration: 4 half-day sessions

Participation: Each company can send up to 4 participants (E.g.: CEO/CTO, 2-3 Head of Divisions)

Cost: \$800 + GST per company

Why should you take part?

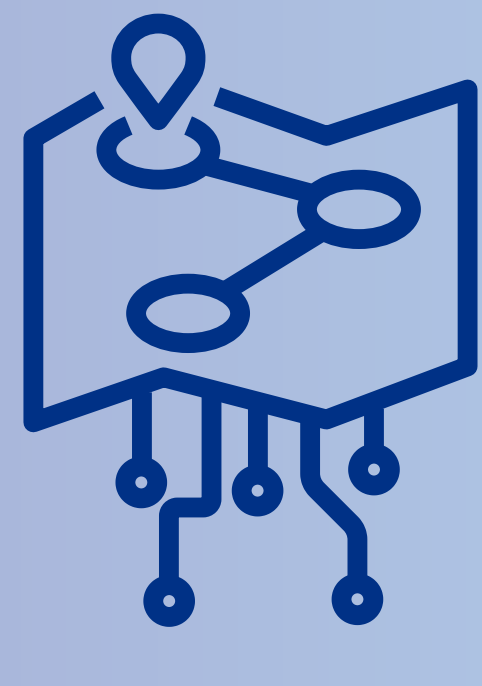

- When you have questions about your business, operations or project performance, do you take time to retrieve information from different sources (departments or personnel) in order to manage your project or write reports?
- Is your data "locked" in some 3rd party system over which you have limited control?
- Do your staff grapple with the impact of uncertainty by relying on experience?
- Does your business suffer from frequent stock-outs and service lags but you don't know how to fix them?
- Is your company heavily reliant on spreadsheets to manage data?

If you answered **"YES"** to any of these questions, this programme is for you.

Singapore Polytechnic will support you and your company in:

Company Deep Dive
Conduct analysis to identify implementable project problem statements for digital transformation.

Digital Transformation Plan
Design a plan for digital transformation that will pave the way for solution adoption.

Be involved in the process! We welcome you and your stakeholders to identify and craft your digital transformation plan together with our experts.
