

DIPLOMA IN ACCOUNTANCY

(DAC - S75)

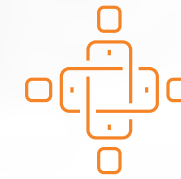

If you have set your heart and mind on a career that involves public or corporate accounting, consulting or financial services, choosing the Diploma in Accountancy (DAC) will pave the way to your success! No business can thrive without a team of competent accounting and finance professionals. Pursuing a Diploma in Accountancy is the first step you can take towards becoming an accounting professional or a Chartered Accountant (CA). Furthermore, with the government's commitment to promote Singapore as a financial hub, accounting and finance professionals are in high demand to keep up with our country's growing economy. The DAC equips you with leadership skills, critical thinking skills and a strong sense of social responsibility, which are essential for you to become an exemplary leader in the future.

EXPERIENCE AN EXCITING LEARNING JOURNEY

Ample opportunities are available for you to gain deeper insights and greater exposure to businesses. Look forward to attending networking sessions, advanced module lessons, community service projects and overseas programmes. These open doors for you to gain contacts and develop skills for your future career in the accounting world.

ENJOY STRONG INDUSTRY SUPPORT

SP has developed close partnerships with the Institute of Chartered Accountants in England and Wales (ICAEW), the Chartered Institute of Management Accountants (CIMA) and the Association of Chartered Certified Accountants (ACCA). Students have the opportunity to take an online test and be awarded the internationally recognised ICAEW Certificate in Finance, Accounting and Business (CFAB). In addition, students can acquire their ACCA professional accounting qualifications through the ACCA Accelerated Pathway Programme (AAPP) and the Diploma in Management Accounting from CIMA whilst still in the polytechnic.

There are also numerous networking and skills development sessions for students to meet with industry practitioners. SP is also offering a pathway after graduation for students to obtain the full UK Chartered Accountant qualification, whilst working with the 'Big 4' firms and other reputable employers.

These collaborations open up many doors for our students to develop professionally on an accelerated basis.

PREPARE TO MAKE AN **IMPACT**

The DAC is not just about “number crunching”. It involves a holistic education that will equip you with strong accounting knowledge, train you to acquire critical thinking and analytical skills, develop leadership abilities and build a strong sense of social responsibility.

The DAC is a three-year full-time programme.

All full-time diploma students are required to take two compulsory Education and Career Guidance Modules in SP. Students will take SP101A: Education and Career Guidance 1 – Personal Development (15 hours) in their first year. In their second or third year, students will take SP201A: Education and Career Guidance 2 – Career Development (30 hours).

All students are required to take one compulsory Sports for Life (SFL) module for one semester in their first year in SP. In their second and third year, students may sign up for SFL module as an elective.

BE READY FOR A FULFILLING CAREER

As a DAC graduate, you will be sought-after in the fields of:

- Accountancy
- Auditing
- Banking
- Business Development
- Finance
- Systems Analysis
- Taxation

Upon graduation, you can look forward to pursuing further studies in accountancy or business degree programmes offered by local and foreign universities. Enjoy the privilege of advanced standing with foreign universities and exemptions from professional bodies such as:

- The Institute of Chartered Accountants in England and Wales (ICAEW)
- The Association of Chartered Certified Accountants (ACCA)
- The Chartered Institute of Management Accountants (CIMA)

“DAC has a dedicated team of lecturers who are always innovating teaching content and the delivery of lessons. With flipped classroom, online teaching tools and the incorporation of real-life corporate case studies into lessons, concepts were easier to understand and more applicable in real life.

Other than technical capability, DAC plays a huge role in preparing students for the working world with industry networking sessions, internship opportunities and talks given by industry partners and alumni.

Lastly, the collaborative learning environment helps to forge stronger bonds among students and makes learning more vibrant! I am proud to be part of this awesome family!”

Philbert Lim Sin Ping
DAC Gold Medallist, Class of 2016
