

## STEM INC Staff Completing Digital Fabrication Skills Course

9 staff from STEM Inc. a unit of Science Centre Singapore, was treated to a Graduation Event held at Tulip Room, Singapore Polytechnic on 2<sup>nd</sup> December 2016. It was graced by Associate Professor Lim Tit Meng, Chief Executive, Science Centre Singapore.

The positive outcome of the course was the display of the final products that each participant created using digital fabrication principles. Prof Lim was very impressed with the ingenuity and practicality of the products displayed which included the infinity mirror and smart spoon.
