

Freshman Orientation Programme 2022

School of
Chemical & Life Sciences

Welcome Message by Dr Tan Tuan Lin Director – School of Chemical & Life Sciences (CLS)

CLS is Discovery.

Embark on a path of discovery to uncover answers to fundamental questions, and overcome both research and practical challenges in the chemical and life sciences, especially important during this pandemic.

The coming 3 years will be exciting, challenging yet critical for you! We are elated to be able to journey alongside you, and celebrate your growth and successes! All the best!

About the School of Chemical & Life Sciences (CLS)

CLS is often known as the most colourful school in SP. This is because we offer a wide range of courses to train technologists, scientists and specialists for the food, polymer, chemicals, petrochemicals, pharmaceutical, biotechnology, healthcare and biomedical industries.

With a team of over 100 qualified and experienced academic and technical support staff, CLS offers 6 full-time diplomas. Upon completion of the diploma programme, our graduates can be gainfully employed as food technologists, polymer technologists, industrial chemists, process technologists, biotechnologists, medical technologists, cardiac technologists and optometrists.

Additionally, CLS has excellent industry and academic links, both locally and regionally. Course curricula are always kept up-to-date based on feedback from the industries, universities and our huge pool of alumni. Many of our staff also serve in external professional committees and their technical expertise has been deployed in consultancy or applied R&D work.

Student training is supported by art facilities housing sophisticated equipment, which provide students with the necessary hands-on experience to meet industry needs. CLS students are also given the opportunity to acquire relevant experience through industrial, research or clinical attachments and industry-based projects. As a result, CLS graduates are well prepared for the working life and are highly sought after.
