

SPEAR Modules:

Module Code	Name	Acronym	Hours	Yr/Sem	Module Synopsis
LCXX60 ABE: LC0160 CLS: LC0260 EEE: LC0360 MAE: LC0560 SMA: LC0660 SB: LC0760 SOC: LC0860 MAD: LC1060	Critical and Analytical Thinking	CAT	30	Year 1 Sem 1	This module aims to equip students with skills in critical and analytical thinking, which include the ability to evaluate different perspectives, articulate a point of view and support it with relevant and credible evidence. The module also provides students with opportunities to practise information literacy, and critical and analytical thinking through the exploration of contemporary local and global issues.
LCXX61 ABE: LC0161 CLS: LC0261 EEE: LC0361 MAE: LC0561 SMA: LC0661 SB: LC0761 SOC: LC0861 MAD: LC1061	Narrative Thinking	NAT	30	Year 1 Sem 2	This module aims to equip students with the skills to critically evaluate the elements of narratives used in a variety of contexts, and to appreciate and harness the power of storytelling in our daily life. Students will analyse narratives to connect and contextualise self to society, and learn to craft impactful personal narratives to inspire or influence others.
CC1S10	Sustainable Innovation Project	SIP	45	Year 2 Sem 1 or 2	This module aims to equip students with a Design Thinking mindset to create an innovative solution to tackle local societal issues mapped to the UN Sustainable Development Goals (UN SDGs). Students collaborate in multi-disciplinary groups to apply design thinking method and tools backed by research and qualitative data, to create sustainable and innovative prototype solutions for real-life issues faced by a local user in need. In the process, they develop a better understanding of themselves, and empathy for a local user in need.
