SINGAPORE POLYTECHNIC SP
I CAN USE MY IMAGINATION TO MAKE A DIFFERENCE

Media has the power to influence people’s perceptions and ideas. The Arts ignite our senses and expand our minds. Design can change the way we shape, perceive, understand, enrich and experience life.

In a world that is volatile and complex, an education to hone your creativity and imagination opens up pathways to careers in the fields of media, arts and design, where you can make a difference in workplaces, products, experiences and communities.

At the Media, Arts & Design (MAD) School, we are MAD about:
• Developing creativity using pedagogical methods – from studio-based learning to out-of-classroom learning activities.
• Tapping the experience of our lecturers – all keenly in touch with industry trends – to equip students with skills and knowledge to solve problems.
• Providing learning spaces modelled after real-world work environments for authentic learning.
• Collaborating with industry partners to prepare students for employment.

If you see yourself making a difference in the media, arts or design field in the future, and are curious, brave, tenacious and empathetic, this is the place for you.

Here in MAD School, our students are trained to take what they imagine to be possibilities – and turn them into realities.
The Diploma in Applied Drama & Psychology journeys beyond performance, integrating the tools of drama with an understanding of psychology. The result is a powerful engine for education, social intervention and change.

At DADP, authentic learning means extending the boundaries of the classroom. Your assignments will give you the chance to work with different communities, from children to seniors.

Electives

The SP elective framework offers students options to pursue their passion and / or meet different career needs, and is an integral part of the holistic education we seek to provide to our students. The learning experiences of this elective framework help students in their development as self-directed, versatile, life-long learners, which are essential in today’s volatile and changing societal as well as occupational landscape.

For a list of electives offered, please visit www.sp.edu.sg

---

All full-time diploma students are required to take two compulsory Education and Career Guidance Modules in SP. Students will take SP10A: Education and Career Guidance 1 – Personal Development (15 hours) in their first year. In their second or third year, students will take SP20A: Education and Career Guidance 2 – Career Development (30 hours).

All students are required to take one compulsory Sports for Life (SFL) module for one semester in their first year in SP. In their second and third year, students may sign up for SFL module as an elective.
The Diploma in Creative Writing for TV & New Media develops students’ ability to find, shape and realise their stories, and fine-tuning them into polished content for various media platforms, such as print, television and transmedia.

Students learn to ideate and create stories, put them into words and visuals and present them to the audience. This is done through children’s stories, news articles, documentaries, TV dramas and comedies as well as content for website and mobile applications.

COURSE HIGHLIGHTS

In this course, you will:

- Be inspired. Find your muse in The Writers’ Room, our unique space for dreaming and writing. Through our masterclasses, network with seasoned journalists, scriptwriters, filmmakers, animators, comic strip artists and other media professionals from Singapore and around the world.
- Leave the classroom. Record your news, drama, comedy, reality show or documentary in a studio setting or the outdoors.
- Pitch your programmes to industry experts and, if selected, watch them come alive on TV.

WHAT THE INDUSTRY SAYS:

“In a fast changing and complicated media landscape, the students from DTVM have always shown themselves prepared for any battle ahead. They are open to try out new avenues in thinking, working and producing, while always providing the best results possible.”

Diogo Martins
Content & Community Lead, Bloomr (Brand Studio), Mediacorp

“I was privileged to be part of a panel where DTVM students presented their final year projects. I can honestly say that each of the pitches was extremely well executed. They were better than some industry pitches I have seen! The imagination, conviction, well thought out content is to be applauded. If this had been an official industry pitching session, I’m confident a number of the series created would have had a very good chance of being commissioned.”

Susan Oliver
Head of Beach House Kids

“SP interns have shown they are eager to learn on the job and have been enthusiastic in taking on a wide range of assignments. They have contributed greatly to the newsroom in terms of story ideas and being willing to work with and learn from their more experienced colleagues. We look forward to welcoming more SP interns in the future.”

Andre Yeo
News Editor, The New Paper

FURTHER STUDIES

You may pursue a degree in arts and social sciences, journalism, mass communication, new media communication and other related degrees.

DTVM graduates are accepted into degree programmes at local and foreign universities. Some of these universities grant generous exemptions and advanced standing to our graduates.

I have always loved writing since young and DTVM has helped me pursue my passion. Besides creative writing, I was also exposed to production work and have found my career in it. My internship with Big 3 Media was such an eye opening and fruitful experience that I decided to work full-time after graduation to build up my industry experience.

Tan Hui Tian Esther
Tan Kay Yong Gold Medallist, Class of 2017, currently working at Big 3 Media Production as an Assistant Producer

Singapore Polytechnic’s Diploma in Digital Animation was where I met the best friends I have ever made in the course, and amazing lecturers who would go the extra mile to teach and nurture us into animators of tomorrow. The rigorous and ever-evolving coursework taught me the fundamentals in animation and art and the mindset and lifeskills that I will be able to apply in the workforce. It was a dream come true to live and breathe my childhood dream, and I am thankful for everything that this course has taught me.

The Diploma in Experience & Communication Design trains students to be versatile creative thinkers, who can deliver beyond the visual experience of a brand.

The diploma offers solid foundation in visual communication skillsets - visual design, advertising, branding, photography and video production, user experience and interaction design - and cultivates a deeper understanding of user-centred design.

Students are trained to question, challenge and rethink experiences that shape image, place and object design. Through exploratory and client-based projects, you will refine your creativity, imagination and thinking, and be ready with a strong portfolio to join a future economy powered by design.

In this course, you will:
- Experience a robust integrated curriculum that opens up many pathways for students to explore print, digital and interactive media.
- Gain insights into professional practice through engagement of renowned practitioners and guest speakers from the industry.
- Have opportunities to gain recognition through our “exhibit and publish” culture, and to be mentored to win competitions.

The lecturers taught us the ropes of design and were willing to go the extra mile to help us when we needed help. Being part of The Student Agency as designer and later as the art director, I had the opportunity to work on several client-based projects, such as SP Open House 2015 and 2016 where the team did the creative concept, direction and design. Through my internship with a digital design agency, I also got to work on web design and came up with creative concepts, graphic works and electronic direct mailers. The combination of hands-on learning and dedicated lecturers undoubtedly sparked my passion for design.

The Diploma in Media & Communication is a comprehensive mass communication course with emphasis on digital content creation, integrated communication and research.

Learn to create brand stories by integrating different marketing communication tools (such as advertising and public relations) and delivering them through different media platforms – print, video, digital media.

At DMC, authentic learning means you get to work closely with our industry partners, such as Singapore Press Holdings (SPH) and TBWA, to nurture your aspirations in the wide spectrum of media and communication.

You will also get to apply Singapore Polytechnic's Design Thinking methodology to real-world projects.

In this course, you will:

• Create award-winning real-world campaigns at The Agency, an exclusive, integrated communication facility on campus. Hold media conferences and get your research work published by national and regional media. Our students have won accolades in national competitions such as the Crowbar Advertising Challenge.
• Nurture your talents and aspirations and build your portfolio through a variety of out-of-classroom competitions and client briefs.
• Learn from the best in the media and communication industry through our masterclasses, networking sessions and mentorship programme. Branding legend Ian Batey, who was behind icons such as Raffles Hotel and the Singapore Girl, will personally mentor recipients of the prestigious Batey Challenge.

WHAT THE INDUSTRY SAYS:

"We ventured into the exclusive partnership with DMC to bring the corporate world closer to the students, and prepare them for the workforce in industries related to their studies. What impressed me was SP's Design Thinking pedagogy and the application imparted to students. Every year my teams and I are excited about our internship programme with DMC students. Not only do they inspire us with their passion as new blood for the industry, they also prove to us that they are the talent we need for the eco-system."

Patricia Goh
VP of Southeast Asia at Amobee

"At DMC, we are taught to excel. I was given lots of opportunities to explore. The modules were very relevant and they reflect the latest trends and changes that impact the industry. Eventually I chose advertising; it started as a passion for me and now it’s my life-long career."

DMC alumnus Joseph Chua
General Manager, Havas Media Singapore

The time I spent in SP felt relatively short because I enjoyed most of it. DVEMG was the kickstarter of my career because it gave me an opportunity to partake in an internship with University of California Los Angeles (UCLA) during my final year. The internship not only opened my eyes to the industry but also sparked my interest in motion graphics.
