

Module 6 – Heat Exchangers in a Process Plant

Course Introduction	This course provide participants with the different types of heat exchangers, functions of components in heat exchangers and their operating principles.
Course Objective	By the end of the course, participants will be able to: <ul style="list-style-type: none">• Identify and describe the functions of components of heat exchangers• Identify different types of heat exchangers• Explain the operating principles of heat exchangers
Course Outline	Topics include: <ul style="list-style-type: none">• Identification and functions of components in heat exchanger• Different types of heat exchangers• Operating principles of heat exchangers
