

Job Description: «Professional Conversion Program» Biologics Trainee

**Job Title: PCP Trainee – Scientist, Development Services,
Mammalian
Department: Development Services, Mammalian**

Responsibilities

Development Services encompasses three technical disciplines with associated support functions to develop processes to enable manufacture of recombinant protein therapeutics. A role will be available in one or more of the technical functions dependent on the business needs of the department and the candidate's experience.

- Cell Culture Development: Responsible for the development of cell lines and cell culture processes.
- Purification Development: Responsible for the development of purification processes and supply of protein samples for analytical development.
- Analytical Services: Responsible for analytical testing for both the cell culture and purification teams alongside analytical studies supporting regulatory filings.

Duties and Responsibilities include but are not limited to:

- Adherence to EHS rules and regulations is required at all times.
- Under guidance of supervisor/science lead perform the following activities dependent on the team in which the trainee is placed: Routine cell culture (cell line development and bioreactors), analytical methods aligned with individuals training, routine downstream process development (material supply/process evaluation).
- Document results in accordance with Lonza policies and current Good Manufacturing Practices (cGMP)
- General lab support including housekeeping, equipment maintenance, inventory of supplies, etc.
- Troubleshooting equipment issues and an interest in operational efficiency

Education Experience

- Degree in a relevant Science field or equivalent
- Fresh graduates are welcome
- Individual without prior working experience in the biopharmaceutical manufacturing industry may also apply

- Understanding of the application of mammalian cell culture for the production of biopharmaceuticals
- Understanding of cGMP regulations
- Good problem solving and analytical skills
- Good communication and teamwork skills

Competencies

- Decision Making
- Planning/Organizing
- Effective Communication
- Personal Orientation
- Teamwork
- Customer focus
