

EDUCATION &
CAREER
GUIDANCE
(ECG)

A white compass rose is centered on a red background. The cardinal directions are labeled with 'N' (North), 'S' (South), 'E' (East), and 'W' (West). The compass rose has a star-like design in the center.

Purpose of ECG

1. Career Exploration (Self Discovery)

What can I acquire from my course to prepare me for the future?

- Discover your interests, skills, values and motivations

2. Career Planning

What actions can I take now to help me prepare for my career?

- Explore possibilities
- What skills I have
- What my goals are

3. Career Readiness

How can I prepare for future workplace?

- Internship
- Career & Education Programmes
- Mastery of skills to be future ready

What is ECG about?

Education and Career Guidance (ECG) is about equipping you with the necessary knowledge, skills and values to make informed decisions.

Our friendly and professional ECG Counsellors can help you to assess your strengths and interests, clarify your education and career goals, explore further educational pathways or employment opportunities and assess the necessary skills required for your transition from polytechnic to further education or work.

Students' Testimonials

“

After going through the mock interview during the ECG counselling session, I have become more prepared and confident for my university admission interviews.

Year 3

”

“

I learned skills in writing resumes and techniques of answering interview questions to prepare for my internship. I would encourage students to start early in their planning.

Year 2

”

“

We found the session useful for mapping our career goals, strategizing the relevant skills in relation to our CCA and identifying the necessary steps needed to reach each individual's goals.

Group of Students Year 1

”

Students' Testimonials

“

I was encouraged to explore different career options, some of which I had never considered. I began to think deeper about what I wanted out of my future career. Through the ECG sessions, I discovered my passion for healthcare, giving me a sense of direction.

Graduate

”

“

The ECG session is great. It enables me to be well-informed of how I should progress to my next milestone.

PFP student

”

How can the ECG Counsellor help you?

- 1** Assess your career interests, strengths, skills and values
- 2** One-on-One guidance or Group guidance
- 3** Provide you with an in-depth analysis of your education and career needs to steer you in the right direction
- 4** Gain insights on job and industry requirements
