

## Associate Engineer, Radio Specialist and Technology

We are currently looking for a suitable candidate to fill the position of Associate Engineer, Radio Specialist and Technology. The position will be part of RST and key responsibilities would include:

1. 3G, 4G, C-IoT and 5G testing
2. Network performance monitoring and automation
3. RAN issues troubleshooting

The full job description is available at <https://groupcareers.singtel.com/job/Associate-Engineer-Sing/580100310/>

We are mainly looking for Diploma graduates with the relevant knowledge (courses in wireless communications, mobile technology, etc.) and/or working experience. As 5G is fairly new to all of us and details can be learned fairly easily, we are happy to evaluate fresh graduates that express strong interest in the field.
