

First Ever Pathway Programme from a Polytechnic to SUTD in Singapore

Join the SP – SUTD Accelerated Pathway Programme

Singapore Polytechnic (SP) partners Singapore University of Technology and Design (SUTD) to develop and launch a first-of-its-kind Accelerated Pathway Programme (APP) in Singapore, where you could earn university credits while doing your SP diploma.

The **SP-SUTD APP** is possible **only** if you enrol in one of the following diploma courses offered by the School of Electrical & Electronic Engineering (EEE) at Singapore Polytechnic:

- **Diploma in Aerospace Electronics (DASE) - S90**
- **Diploma in Computer Engineering (DCPE) - S53**
- **Diploma in Engineering with Business (DEB) - S42**
- **Diploma in Electrical & Electronic Engineering (DEEE) - S99**
- **Common Engineering Programme (DCEP) - S40**

If you choose any one of the above 4 EEE courses in Semester 2 of Year 1

In partnership with

What is an Accelerated Pathway Programme (APP)?

This is a curriculum adjustment which allows APP students to seamlessly take some university modules within the duration of the Diploma study which are credited to the SP diploma they are studying while earning them module credits to be recognised by the university when they continue to do their degree study in SUTD.

Benefits?

Shortens the time from diploma to degree to work.

"This special pathway programme will help SP's Electrical & Electronic Engineering students graduate earlier with a diploma and bachelor degree, providing much-needed technically-grounded leaders and innovators who can help better Singapore and the world by design."

- Prof Pey Kin Leong, Associate Provost, SUTD

Who are eligible?

All year-1 EEE students from Cohort 2020 onwards

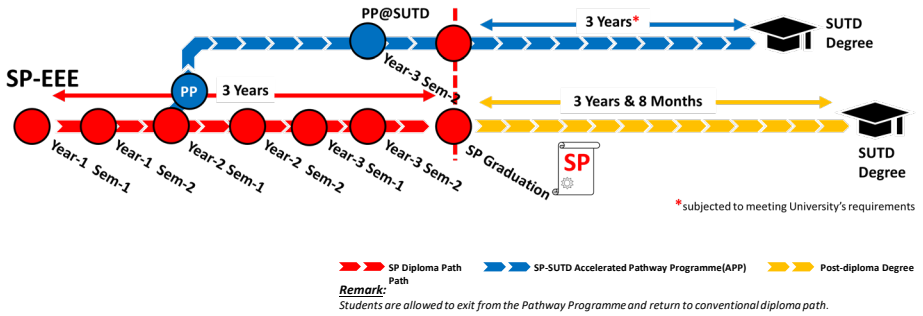

Application & Selection Criteria

- Students may apply during Year-1 Semester-2
- Selection of students will be by merits and interview
- APP programme commences in Year-2 Semester-1

Conditional Offer by University

APP students will be allowed to enter SUTD's Term 2 directly after they have completed their SP diploma course requirements and upon meeting SUTD's Term 1 course requirements.
