

# An AEC Event: **Visit to ITE College Central** (9 December 2013)

On 9 December 2013, Director PACE led 18 members of the SP Adult Educator Community to visit ITE College Central in Ang Mo Kio. ITE and SP are both committed to the national CET Master Plan, especially to enhance the employability of our workforce through continuous skills upgrading and lifelong learning. The visit gave us a very good insight into the nature of training conducted by ITE. We also get to visit some of the facilities in the campus.

Mr Suresh Punjabi, Director PACE Academy with Mr Chong Leong Fatt, Deputy Principal (Administration) ITE who hosted the visit. After delivering a Corporate Presentation on ITE, Mr Chong brought us on a campus tour.

A group photo taken at the newly opened Aerospace Hub. The Hub is equipped with state of the art facilities which include a Boeing 737, a Lear Jet and a Rolls Royce Trent engine that powers the Airbus A380.

At the Design Excellence Centre, we get to see works undertaken by students of various design courses in which design thinking is being infused into the curriculum. Products created by the students can be purchased in the ITE Epitome.
