Question 25					-----	Question 50				

RULES OF CONDUCT OF EXAMINATIONS FOR CANDIDATES

- 1 No candidate is allowed to enter an examination room later than 30 minutes from the start of the examination, or to leave an examination room within this same period. For example, if an examination begins at 9.00am, no candidate will be allowed to enter the examination room later than 9.30am. Similarly, no candidate will be allowed to leave the room earlier than 9.30am.
- 2 The identity of all candidates taking Polytechnic Examinations will be checked during the examination. **Candidates must bring their Identification Card and place it at the right hand corner of their examination desk at the commencement of each examination.**
- 3 Candidates may read the examination paper as soon as they receive it, but cannot commence writing until the Invigilator gives permission to do so. Candidates are also required to check that they are given the correct question paper.
- 4 If a candidate leaves the room after the papers have been given out, he will not be allowed to return to the room unless he has been accompanied by an Invigilator while he was away.
- 5 Candidates are not allowed to wear caps or hats during the exam. They are also not allowed to bring to the examination room notes, drawings, pictures, tracings, books, dictionaries (both in book or electronic form), etc, other than those specially permitted by the detailed regulations for the module. Handphones, pagers, walkman sets and any other telecommunication equipment are also not allowed. If handphones or pagers are left at the front/back of the examination room, they must be switched off.
- 6 Unless otherwise stated, a candidate may use an approved non-programmable electronic calculator and drawing instruments, provided they contain only the manufacturers' mark and nothing else.
- 7 Candidates are not allowed to pass anything to other candidates in the examination.
- 8 A candidate must not, for any reason, speak to or have communication with another candidate. If any candidate wishes to ask a question, he must ask the Invigilator direct; but no questions on the meaning or interpretation of an examination question may be asked or will be answered.
- 9 Any candidate who wishes to communicate with an Invigilator must remain seated and raise his hand.
- 10 Candidate's answer scripts, unless previously given up, will be collected at the time fixed for the end of the examination.
- 11 Candidates must not leave the room towards the end of the examination until the invigilator tells them to do so.
- 12 Candidates must leave the answer books, drawing papers and other examination materials on the table.
- 13 Candidates must not eat, drink or read newspapers during the examination. However, candidates may request for permission from the invigilator to drink water from their own water bottles.
- 14 If a candidate is found breaking any of these rules, during the examination or afterwards, his paper will not be marked and he may be told to leave the examination room.
- 15 Any action by a candidate contrary to the letter or spirit of these rules, whether discovered during the examination or afterwards, will disqualify the candidate.

Note:

The above rules are to be observed together with all other Polytechnic rules and regulations.
