

## SKILLED UP IN FINTECH

The Singapore Fintech Association (SFA), the U Associate of the National Trades Union Congress (NTUC) and Singapore Polytechnic are jointly launching the Fintech Talent Programme which aims to create a talent pool of PMEs trained in financial technology to support Singapore's ambition to become a Smart Financial Centre.

The **Fintech Talent Programme**, primarily driven by industry practitioners, is a 2-month intensive facilitated training programme with a capstone project to be completed in a month. The programme intends to build the necessary skills for participants to be able to become Fintech industry leaders and entrepreneurs. Topics covered include introduction to FinTech, Design Thinking, Big Data, Digital Currencies, Blockchain, RegTech, Cybersecurity, Cloud Computing and the API economy.

Due to limited places in the inaugural run of the programme from 3 Oct to 28 Nov 17, do hurry to register here - [http://www.sp.edu.sg/wps/portal/vp-spws/pace.courses.short.list.details?WCM\\_GLOBAL\\_CONTEXT=/lib-pace/internet/short+courses/fintech+talent+programme](http://www.sp.edu.sg/wps/portal/vp-spws/pace.courses.short.list.details?WCM_GLOBAL_CONTEXT=/lib-pace/internet/short+courses/fintech+talent+programme)

Mr Chia Hock Lai, President of SFA, conducting the course preview on 13 Sep 17.
