

Young Thinkers Challenge National Infocomm Competition | Data Analytics

In partnership with IDA, SAP has run a Data Analytics challenge as part of the National Infocomm Competition 2015 in Singapore. This challenge aims to spark the interest of youths in IT and inspire them to use Data Analytics to show insights and contribute ideas on **SINGAPORE AS A SMART NATION**. Using SAP Lumira, secondary school students create infographics on these themes: Better Lives, More Opportunities, Stronger Communities and Greener Environment.

The top 3 winners are:

Raffles Institution
RiTeamTwo
